ID: C.C. No. 80.158.908 of Bogotá, Colombia

Date of Birth: February 13 de 1982, Bogotá, Colombia

Address: Calle 22L No. 96J – 46 Int 5, Bogotá, Colombia

PROFESSIONAL PROFILE

I am a passionate developer with a strong background in creating and optimizing high quality web applications. My main focus lies in:

- Key technologies such as JavaScript, TypeScript, and Python, where I have demonstrated advanced skills to implement innovative solutions that not only meet requirements but also significantly enhance the user experience.

Staying abreast of the latest technological trends is an integral part of my professional approach. My drive for continuous improvement is reflected in my ability to learn quickly, allowing me to adopt new technologies and frameworks with ease.

In my pursuit of opportunities, I aspire to contribute my experience and technical skills to an environment that not only values the efficiency and robustness of code but also fosters innovation and professional growth. My primary goal is to continue elevating my capabilities, embracing new challenges that propel my development as a developer, and contributing to the ongoing success of ambitious projects.

I am a firm believer in the importance of collaboration and teamwork. I am enthusiastic about joining a dynamic environment where I can not only apply my current skills but also learn and grow alongside equally passionate professionals.
